

Daisy and the Tiny Seed

Printing & Use Guide

Thank you for welcoming Daisy into your home!

Your download

You'll receive a 24-page PDF, including the covers and a coloring activity. This is a digital product; no physical book is included.

Printing your book

- Use US Letter paper: 8½ × 11 inches, in portrait orientation.
- Select Fit to printable area to avoid cutting off artwork.
- For double-sided printing, select Flip on long edge.
- Print pages 1-4 as a test before printing the whole book.
- Keep the pages in their original order and bind along the left edge.
- Print the coloring activity on plain, un laminated paper for crayons or colored pencils.

Colors may vary between screens, printers, and paper types. Your printer may leave a small white border.

Personal use

Your purchase is for use within one household. You may print replacement copies and additional coloring pages for that household, or have a print shop make those copies for you.

Please do not share, upload, resell, or redistribute the PDF or printed copies. For classroom, church, or other group use, please contact Bee Blessed Homestead about permission.

Need help?

If your file won't open or print correctly, contact Bee Blessed Homestead through the website.

With love,
Allison Soto
